

Select DHS Service Data

Calendar Year 2005

Select Data Elements and Tables for Community Planning

Aggregate Data by Race and Gender

Criminal and Juvenile Justice Planning
and
Department of Human Services

Introduction

This document provides information regarding select services administered by the Iowa Department of Human Services (DHS). Information is taken from the DHS data warehouse. The document specifically seeks to provide county and select regional planning data broken down by race/ethnicity and gender. The data contained is presented as point and time counts for calendar year 2005. The following page provides a brief description of basic considerations relative to use and interpretation of the data.

This document is intended to serve as a resource for child welfare/juvenile justice planning officials and youth serving agencies. It was produced as a collaborative effort between the Iowa Gender Specific Services Task Force, the Iowa Disproportionate Minority Contact Committee, DHS, and the Iowa Division of Criminal and Juvenile Justice Planning. It is hoped that the information provided can further state and local planning efforts for girls and youth of color, as well as improve the overall variety of information available for select system services.

Note: To make this data available, there are some caveats that should be recognized.

Race	Description
1	White, Not Hispanic
2	Black, Not Hispanic
3	American Indian or Alaskan
4	Asian or Pacific Islander
5	Hispanic
6	IndoChinese

Data Assumptions

Clients will be counted multiple times if they receive multiple services or are on multiple cases.

Court Ordered, Family Centered and Family Preservation service end dates have not be imported into the database, so the end date has been set to the service start date for these services.

Service costs for the FACS services are not available at this time.

Services without an end date are assumed to be still on-going.

The end date has been set to the start date for Court Ordered, Family Centered and Family Preservation services.

This may result in undercounting on-going services.

Service Descriptions

This document contains data regarding a variety of select DHS Services. Provided below is a brief description of those services.

Family Preservation Services – highly intensive and time-limited intervention that was developed to prevent out-of-home placement of children. Services are provided in-home and are tailored to meet the individual needs of families in crisis and consist of one or more of the following components: therapy and counseling, skill development and psychosocial evaluation. Other services such as supervision, transportation, and community resource building are also available to families.

Family Centered Services – services which use a comprehensive approach to address the problems of individual family members within the context of the family. These services are adapted to the individual needs of a family in the intensity and duration of service delivery and are intended to improve overall family functioning. Family-centered services may consist of combinations non-rehabilitative treatment, rehabilitative treatment, and supportive services.

Independent Living - provides a level of care and supervision that is midway between traditional foster care and total discharge for older youth in foster care. In this level of care the youth live in an apartment under supervision of a DHS/Juvenile Court Services or private agency worker. The goal of the program is to promote independence.

Shelter Care – provides 24-hour emergency care for children unable to remain in their own home, until they can be returned home or other permanent arrangements can be made. Shelter care services primarily include crisis intervention and daily supervision.

Family Foster Care – a home in which an individual person or married couple is providing, for a period exceeding 24 consecutive hours, board, room, and care for a child in a single family living unit.

Community Group Care – are facilities which provide care for children who are considered unable to live in a family situation due to social, emotional or physical disabilities but are capable of interacting in a community environment with a minimum amount of supervision. The facility provides 24-hour care including room and board.

Comprehensive Group Care – are facilities which provide care and treatment for children who are unable to live in a family situation due to social, emotional, or physical disabilities and who require varying degrees of supervision as indicated in the individual treatment plan. Care included room and board. Comprehensive group care facilities have higher staff to client ratios than community residential facilities and may use control rooms, locked cottages, mechanical restraints, and chemical restraints when these controls meet licensing requirements.

Highly Structured Juvenile Program – are short-term treatment programs lasting 90 days and having a high degree of structure that stress discipline, physical activity, and education. These programs must be licensed as either community or comprehensive group care settings.

Enhanced Residential Treatment – are specific structured treatment programs within comprehensive group care settings. In some cases enhanced programs operate in a locked setting.

Psychiatric Medical Institutions for Children – are services for children with psychiatric disorders who are able to be treated in a physically non-secure setting.
