

**Start saving money now with these easy tips:**

- Lower the thermostat 2 degrees or more in the winter.
- Change your furnace filter monthly during the heating season. If you have central air conditioning, change the filter in the summer, too.
- Keep obstructions away from the hot and cold air registers.
- Lower the water heater temperature.
- Replace light bulbs with high efficient fluorescent light bulbs.
- Unplug secondary refrigerators and/or freezers not fully used.
- Wash and dry full loads of laundry. Hang clothes out to dry when possible.
- Clean dryer lint filter after each load.
- Turn lights off when leaving a room.
